Gain Insights

Easy to integrate

We have reduced our yearly maintenance budget 15%-20% by efficiently planning the maintenance and productively use our resources with TITAN. We have improved resource utilization up to 50% and we have reduced 40% work force allocated for maintenance. We have standardized the maintenance procedures for assets & equipment to reduce dependencies. We have reduced downtimes of production by 40%. Maintenance couldn't have been a simple job without TITAN.

REDUCE MAINTENANCE COST
MINIMIZE DOWNTIMES
BOOST PRODUCTION
IMPROVE ASSETS LIFE
BOOST TEAM PERFORMANCE
ENSURE COMPLIANCE

DASHBOARD

- > Analyze asset performance metrics.
- > View spare parts requirements and usage trends.
- > Identify recurring failures and expedite resolution.
- > Review unplanned material usage.
- > Review and act on cost overrun and scheduling delays.

INVENTORY & ASSETS

REDUCE:

- > Unnecessary paper work
- > Communication delays
- > Data fragmentation
- > Resource dependency

IMPROVE:

- > SOPs and best practice compliance
- > Resource utilization
- > Quality control
- > Maintenance tracking & history

WORKFLOW

REDUCE:

- > Stock waste
- > Human intervention
- > Turnaround Time

IMPROVE:

- > Accountability & prioritization
- > Safety
- > Forecasting and planning
- > Standard practices

IOT COMPATIBLE

- > Automatically collect condition-related measurements.
- > Facilitate safety compliance.
- > More accurate Total Cost of Ownership (TCO).
- > Step-In to smart maintenance management era.
- > Automatically generate and schedule maintenance requests.

TRACKING & REPORTING

IMPROVE:

- > Average MTTR (*Mean time to repair*)
- > Average MTBF (*Mean time between failures*)
- > Preventive maintenance waste
- > Time to diagnose

IDENTIFY:

- > Maintenance trends and averages
- > Cost footprints
- > Audit logs
- > Productivity black holes
- > Compliance to standards

COST

REDUCE:

- > Downtime & unplanned shutdowns
- > Overtime
- > Average time to repair
- > Repair Cost

IMPROVE:

- > Asset life
- > Budget efficiency/ utilization
